

Aquaease™ TI-P

Aquaease TI-P is a powder cleaner concentrate that can be blended with inorganic builders and natural or synthetic detergents to yield alkaline cleaning compositions.

Aquaease TI-P can be used as a base to blend alkaline spray, soak, and electro cleaners. It is compatible with alkaline builders such as borax, caustic soda, inorganic phosphates and soda ash. It is designed for aqueous cleaner formulations that will have a pH of 11 or greater. It is not for use in formulating neutral or acid-based cleaners.

Aquaease TI-P is normally used in cleaner formulas at concentration of 10% to 50% by weight.

It is an anhydrous material with the ability to absorb a relatively high amount of liquid detergent and or solvent such as glycol ethers.

Aquaease TI-P is an alkaline material yielding aqueous solution of pH greater than 11. Keep out the reach of children, wear all appropriate personal protective equipment when handling the product and read and thoroughly understand the material safety data sheet prior to working with Aquaease TI-P.

Features & Benefits

Easily dissolvable powder for alkaline cleaning	Used as a base to blend spray, soak and electrocleaners
